

*June 2015*

Dear Friends and Family:

I am writing to you from “on the road.” I have had to travel back to the USA in order to apply for a visa to one of the countries I need to visit. If obtained, the visa would allow me to travel to that country and install a couple of new recording studios as well as conduct training.

We are working hard on the Power Up project for the Bonaire transmitter. Once complete, this radio station will reach millions more in Latin America. Already with an estimated 1 million listeners in Cuba, the new transmitter would enable us to reach the entire country with a loud and clear signal. Currently, reception is only partial and sometimes fades in and out.

Members of Topeka Bible Church provided copper sheeting for the four antenna tuning unit houses for the new transmitter system. Then a work team came to bend and weld the copper into place. I was supposed to spend the week working with the crew but instead was sick the entire time with a fever.

By the time you receive this, we will be deep into laying the new feed lines to the towers. This is a shielded transmission line that runs

from the output section of the transmitter underground to the tuning houses and then connects to the towers. Trenches are being dug now and prepared for the cables.

*One of the reels of feed line*

A great deal of hard work remains for this project, but we hope to finish within about a year. God has provided the funding for the project so far, but we still need funding for the transmitter itself.

Please pray for us as we look to the future of our involvement in the global ministry of TWR. As you know, our time on Bonaire is a temporary assignment. We have been in discussion over what is next and are very encouraged. No decisions are made, but some of the ideas presented to us are intriguing and look promising for meaningful ministry.

Thank you for praying for us. Please continue to pray for:

- Continued improvement in Rebecca's health.
- Janette's health.
- Funding for the transmitter upgrade.
- Safety on the job for Nate and for safe travel in Latin America.
- Nate's relationship-building with our partners in Latin America.
- Safety for the work teams coming to help with the power-upgrade project.
- Guidance for the future.

*Volunteers from Topeka Bible Church and Grace Bible Church work on the copper.*

*Trenching for feed lines*

Many blessings,

Nate and Janette McGurk
