CAMENA

Speaking Hope to the World

## Dear Friends and Family

Our move to Cyprus is almost complete. We arrived the first week of August. We have been living out of suitcases since March 2017. That will come to an end today as our household container is due to arrive in a couple of hours from now as we write this letter. It will be nice to finally settle for a while. It's funny how we sometimes forget what we have. Several times we have been in a store and see a kitchen item we could use, only to stop and try to remember if we already have the item in storage, or did we give it away? One thing we know we will face is a tremendous amount of mold and must from such long storage and shipping as well as inevitable damage.

Nate has been very busy setting up the new office on Cyprus while still keeping up his duties as a technical director. There is an incredible

amount of work in establishing a new office in a new country. Please pray for both wisdom and stamina.

Janette has begun a new role in which she is both thrilled and humbled at the same time. She is teaching English to Syrian refugee women who have no previous English language. This is an incredible experience and opportunity for Janette. Please pray for the Spirit to go ahead of her and for wisdom.

The weather on Cyprus was hot and humid as we arrived. We are now moving into the fall with temperatures in the upper 70s. We are told to expect a couple of months of winter where there will be rain and cold wind. For now it is beautiful. I have attached here a photo of the view from the house we were so fortunate to find.

**Please continue to pray for our children:**

**Mark and Morgan as they raise their new daughter, "Violet."**

**Amalie and Ricky as they continue to raise three sixteen-year-olds and a grade schooler.**

**Hannah as she balances work, social life and raising missionary support.**

**Karly as she teaches Special Education in Manhattan.**

**Rebecca as she prepares to move into new housing this month.**

**Thanks for holding us up in prayer. We count on you.**

**Many blessings,  
Nate and Janette McGurk**
